## Driver Body Camera DBC-Pro Driver Installation and Video Player Application Setup Instructions

The connection between police law-enforcement video and audio recorder and the computer needs to be realized through professional

management software. The support operating systems are Windows2000,

Windows XP, Vista and Windows7. For the first connection between your law-enforcement recorder and the computer, when reading the data, you need to operate as follows:

Step 1:

Copy the software and driver to computer and connect the law-enforcement recorder to computer. Open "Device Manager" in "My Computer" and select document with yellow question mark in "Other devices", as shown in the following figure.

Step 2: double click to select the yellow question mark, the interface shown as follows, and then select upgrade the drive program.

Amba Sir	nple C	lass Pro	perties 🛛 💽 🔀
General	Driver	Details	
$\diamond$	Amba	Simple Cla	355
