Time Setting Question for: SD4HD, SD4HW & RSD4HD, RSD4HW

1.Setting time directly:

A.Log in Menu by default password: 6666

Login			
User ad∎in ▼			
Password			
OK Cancel			

Noted: If you log in by password:1234, you just can see the setting but cannot change.

B.Come into "Base" setting and check the time and click "OK" to be Blue:

	В	ase		
Date FMT	YYYY-MM-DD •	DST	OFF	•
Date	2016-04-01	Time	13:47:49	•
Language	ENGLISH	Video mode	NTSC	-
Delay time	0005s	Speed unit	MPH	-
			OK Can	
			Gan	Cer

C.Use delete button on remote control to delete old setting and input new time:

	()	
	FT F2 F3 F4	
	-	
	Q 🔳 🖬 REC	
	PSet PDel Pgo Scan	
	+ bris+ + Zoom bris	
	1./@ 2abc 3def	
	Aghi 5jkl 6mna	
	7pqrs 8tuv 9wxyz	
Delete Button		

D.After setting, please restart MDVRs

- 2. GPS auto adjust time:
- A. GPS antenna connects with MDVR and GPS works

B. Come in "GPS" setting and settle time district in the "GPS timing". For example; UTC-5, Eastern standard time, you just need to choose UTC-5 in the GPS timing and restart MDVR, it will adjust the time automatically.
