

SD4HD, SD4HW & SD4HC SD Card viewing Procedure

Proper SD Card viewing Procedure:

Right Click DVR_Player application icon on your PC

From the popup window choose: "Run as Administrator"

Password for application is "admin"

Close the window telling you "No HDD Found"

The application will open and you see the Player screen GUI

Then and only then insert the SD memory card

The Program will recognize files and populate left side of Player window If it does not then select Open HDD File from top icon and browse for file.

"DVR_Player" Applications must be Run as Administrator

To open the DVR_Player application right click on the application icon and select "Run as Administrator" from the pull down window choices.

If you insert a SD memory card and see this warning or any warning that offers "Initialize" as an option, select "Ignore" or "Eject" to safely eject the SD card and then close the program.

To reopen it; To open right click on the DVR_Player application icon and select "Run as Administrator" from the pull down window choices.
